It is suitable for city fire brigade, professional fire brigade, forest fire brigade, volunteer fire brigade, inflammable and explosive enterprises, cultural properties, large warehouses, oil depots, stations, ports, ships, temples, goods yards, forest, plantation etc. It is also the ideal equipment for flood drainage, drought remote water supply, site washing, etc.

Specifications:

Appearance Dimension	650 x 565 x 510mm
Device Weight	≤62kg
Max Capacity	720L/min
Pump Head	75m
Out Pressure	0.4Mpa
Inlet Suction Hose Size	Ø65mm x 7m
Outlet Spray Hose Size	Ø65mm x 20m
Diameter of Nozzle	Ø19mm
Type of Inlet	Screw Type
Maximum Suction Depth	7m
Pump Priming Time	≤20s
Starting Way	Electric Start
Model of Engine	13HP, HONDA
Pump Body	Single Stage

EMDEK SENDIRIAN BERHAD

Lot 10220, Jalan Lombong Emas 5,
Seremban Light Industrial Park,
70200 Seremban, N.Sembilan,
