

EMDEK 4 TON TRACTOR PULLED ROAD ROLLER

The EMDEK 4T Road roller is specially built for rolling/compacting estate roads. When empty, it is 1.5 tonnes in weight to allow for easy transportation from estate to estate. And when filled with water, the gross weight is 4.2 tonnes giving excellent compaction ability. The machine is constructed from heavy gauge steel and heavy duty bearings. Drum has 2 screw-on plugs to allow for draining and filling. Suitable for use behind a tractor with minimum of 70 HP preferably with 4WD.
