

EMDEK TURBO-SPIN SULPHUR DUSTER MODELS 300/500

Our TurboMini300 tractor mounted fertilizer spreaders can be added with a stainless steel extension chute on one side of the machine to convert it to blow sulphur in rubber areas to combat Oidium problems. The 300 lit. capacity suitable for tractors of 25-50HP with 540 rpm PTO and Cat 1 three point linkage. Please refer to our EMDEK TURBOMINI Catalog for detailed specifications.

The Sulphur attachment comes with an closing cover for the other discharge chute opening.
